

YUEDU Magnetic Storage Media Degausser YD-XCJ05

The YUEDU YD-XCJ05 Magnetic Storage Media Degausser is designed to degauss magnetic storage media, including hard disk drives, floppy disks, and magnetic tapes. The unit features an LCD touchscreen and visual management interface, supports direct connection to peripheral devices, and integrates data management functions for safe and convenient operation. With high efficiency, low energy consumption, and low noise, it is suitable for offices, data centers, and district- or county-level destruction centers.

1. Product Specifications

(1) Operating Environment

Power Supply: 220 V (allowable voltage fluctuation: $\pm 5\%$), 50/60 Hz

Machine Dimensions: 460 × 430 × 210 mm

Machine Weight: 25 kg

(2) Product Performance

Supported Media: Hard disk drives, floppy disks, magnetic tapes, magnetic cards, and other magnetic storage media

 **Website(Global):** <https://yuedushredders.com>

 **Email:** yuedushredders@gmail.com

 **Phone WhatsApp:** +86 159 0178 2779

Degaussing Time: 15–20 seconds per cycle

Degaussing Chamber Dimensions: 300 × 155 × 31 mm

Charging Voltage: 850–860 V (the machine issues an alarm if the charge is insufficient)

Degaussing Field Strength: Minimum field strength in the effective degaussing area exceeds 10,000 Oe

Capacity per Cycle: Accommodates two standard 3.5-inch hard disk drives simultaneously

Display: 7-inch LCD touchscreen

Machine Noise: ≤70 dB during normal operation

Power Consumption: 5.5 W in standby; maximum operating power: 250 W

Management System: The machine integrates a digital management system, which records the media ID, operator, degaussing status, degaussing voltage, field strength, degaussing time, and other information. It supports role-based permission management and configuration for administrators and operators. A USB flash drive can be connected directly to export complete degaussing records for any selected time period or segment in .xlsx format.

Voltage Monitoring: Continuously monitors the degaussing voltage to ensure that it meets the required level. If the voltage is insufficient, the machine issues a timely alarm to ensure effective degaussing.

Field Strength Monitoring: Monitors magnetic field strength and issues a timely alarm if the field strength is insufficient, helping ensure effective media destruction.

Voltage Boost and Compensation Device: Boosts and compensates for mains voltage fluctuations that may occur during different seasons or times of day, helping ensure effective degaussing.

Safety Features: Supports automatic safe discharge and manual forced discharge. If a power failure or component fault prevents the machine from discharging normally, the operator can manually force a discharge to help ensure personnel safety.

About YUEDE Shredders

Shanghai YUEDU Technology Co., Ltd. is a **Shanghai-certified high-tech enterprise** specializing in the development and manufacturing of **shredding and destruction equipment**. We serve a wide range of sectors including **government agencies, financial institutions, military departments, enterprises, and recycling industries**.

Our offerings include **office and industrial-grade paper shredders, hard drive destroyers, plastic crushing systems, and fully customized destruction center solutions**. From design to delivery, we help clients achieve efficient, secure, and compliant material destruction.

Our Mission

We are dedicated to the shredding and destruction industry, continuously solving diverse material shredding and disposal challenges for our clients around the world.
